

Task: Meeting others

If you're able and comfortable, go around the classroom and introduce yourself to five different people. Based on your 'interviews,' please fill out the table below. Write down each person's name and where they are from. Be prepared to share with the class who you interviewed.

Try your best to greet and meet people just as you would in the real world – this is definitely a task you will need to be able to do in Miami and abroad!
